PII: S0960-0760(01)00165-0

SUBJECT INDEX

Adenoviral gene transfer
  tissue-specific androgen responses in primary cultures of lacrimal epithelial cells studied by, 319
Adrenal steroid secretion
  increase of, in response to CRF in women with hypothalamic amenorrhea, 247
Androgen(s)
  farnesyl diphosphate synthase is abundantly expressed and regulated by, in rat prostatic epithelial cells, 123
  metabolism in oyster *Crassostrea gigas*, 359
  receptor(s)
    properties of free and occupied, in rat skeletal muscle cytosol, 481
Androgen-dependent MMTV-specific orf gene
  expression of the, in Shionogi 115 mouse mammary tumor cells, 389
Androgen synthesis inhibitor
  pharmacokinetic profile of 3B-hydroxy-17-(1H-1,2,3-triazol-l-yl)androsta-5,16-diene, a potent, in mice, 241
Angiotensinogen
  estrogenic influence on the regulation of hepatic estrogen receptor-α and serum level of, in female rats, 83
Anti-estrogen(s)
  estrogen-mediated suppression of tumor necrosis factor alpha-induced apoptosis in MCF-7 cells: subversion of Bc 1-2 by, 409
Anti-sulfatase agent(s)
  estradiol acts as an, in human breast cancer cells, 21
Aromatase-inhibiting flavonoids
  no evidence for the *in vivo* activity of, 231
Aromatase overexpression
  effects of, on mammary growth and gene expression in the aromatase x TGFa double transgenic mice, 419
Arylhydrocarbon receptor
  effect of, on the human steroidogenic acute regulatory gene promoter activity, 253

Bone mineral density
  codon 325 sequence polymorphism of the estrogen receptor alpha gene and, in postmenopausal women, 15
Brain
  effects of gender and stress on the regulation of steroid receptor coactivator-l expression in the, of rat, 401
promoter characteristics of two *CYP19* genes differentially expressed in the, of teleost fish, 427
Breast cancer
  expression of alternatively spliced estrogen receptor alpha mRNAs is increased in, tissues, 459
Breast cancer cells
  estrogen receptor α mediated induction of the transforming growth factor α gene by estradiol and 4-hydroxytamoxifen in MDA-MB-231, 41
  paradoxical effect of estradiol: it can block its own bioformation in human, 21

Centrosome integrity
  structure-effect relationship in the induction of mitotic phase-specific abnormality of, and multipolar spindles by steroidal estrogen and their derivatives in cultured mammalian cells, 113
Chromosomal gene integration
  stable expression of human 5α-reductase type II in COS1 cells due to, 275
Chrondrocytes
  characterization of PGE2 receptors and their role as mediators of lα,25-$(OH)_2D_3$ effects on, of growth zone, 261
Chronic myeloid leukemia (RWLeu-4) cells
  double bond in the side chain of 1α,25-dihydroxy-22-ene-vitamin D_3 is reduced during its metabolism: studies in, 167

Cochaperones
BAG-1 family of, in the modulation of nuclear receptor action, 379
Cyclin-dependent kinase inhibitor $p27^{kip1}$
cell type-specific induction of, expression by estrogen in rat endometrium, 193
CYP19 genes
promoter characteristics of two, differentially expressed in the brain and ovary of teleost fish, 427
Cytochrome $P450_{scc}$
reflections on sterol sidechain cleavage process catalyzed by, 1

Dehydroepiandrosterone
metabolism of, by rat hippocampal cells in culture, 313
Desogestrel
excretion and metabolism of, in healthy postmenopausal women, 471
1α,25-Dihydroxy-22-ene-vitamin D_3
double bond in the side chain of, is reduced during its metabolism, 167
Endometrium
cell type-specific induction of cyclin-dependent kinase inhibitor $p27^{kip1}$ expression by estrogen in, of rat, 193
Estradiol
inhibition of forskolin-induced vascular endothelial growth factor promoter in MCF-7 breast adenocarcinoma cells by 17β-, 343
inhibition of soluble guanylate cyclase activity through a protein tyrosine phosphatase in PC12 cells by, 451
modulation of TSH-binding by, in the thyrocytes of Wistar rats, 329
paradoxical effect of, it can block its own bioformation in human breast cancer cells, 21
Estrogen-like activity
of glabrene and other constituents isolated from licorice root, 291
Estrogen(s)
cell type-specific induction of cyclin-dependent kinase inhibitor $p27^{kip1}$ expression by, in rat, 193
receptor(s)
codon 325 sequence polymorphism of the, alpha gene and bone mineral density in postmenopausal women, 15
differential activation of wild type and variant forms of, -α by synthetic and natural estrogenic compounds using a promoter containing three estrogen-responsive elements, 25
estrogenic influence on the regulation of hepatic, -α and serum level of angiotensinogen in female rats, 83
expression of alternatively spliced, alpha ITLRNAS is increased in breast cancer tissues, 459
mediated induction of the transforming growth factor α gene by estradiol and 4-hydroxytamoxifen in MDA-MB-231 breast cancer cells, 41
suppression by, -β of AP-1 mediated transactivation through, -α, 177
the multiple untranslated first exons system of the human, -β gene, 33
Estrogen responsive elements
differential activation of wild-type and variant forms of estrogen receptor α by synthetic and natural estrogenic compounds using a promoter containing three, 25
Estrone sulfatase(s) purification, characterization and crystallization of human placental, 441

Gene promoter
effect of arylhydrocarbon receptor on the human steroidogenic acute regulatory, activity, 253
Glucocorticoid-dependent transcription
effects of the heterogeneous nuclear ribonucleoprotein U on, transcription *in vivo*, 59

Hippocampal cells
metabolism of dehydroepiandrosterofle by rat, in culture, 313
Hormone replacement therapy
estrogenic activity of two standardized red clover extracts intended for large scale use in, 67
Human hepatoma (HrpG2) cells
factors regulating insulin-like growth factor binding protein-3 secretion from, 131

7-Hydroxydehydroepiandrosterone epimers
in the life span, 367
17-Hydroxylase
evaluation of the present view of its catalytic role in steroidogenesis, 299
21-Hydroxylation
steroidogenesis in the human skin and, in cultured keratinocytes, 77
17β-Hydroxysteroid dehydrogenase
activities and characterization of an aromatase-like activity inhibited by pharmacological compounds and a marine pollutant in androgen metabolism in oyster *Crassostrea gigas*, 359
20β-Hydroxysteroid dehydrogenase
hormonal regulation of male-specific, with carbonyl reductase-like activity present in kidney microsomes of rats, 373
4-Hydroxytamoxifen
estrogen receptor α mediated induction of the transforming growth factor α gene by estradiol and 4-hydroxytamoxifen in MDA-MB-231 breast cancer cells, 41
Hyperaldosteronism
familial, 215
Hypothalamic amenorrhea
increased adrenal steroid secretion in response to CRF in women with, 247

Insulin-like growth factor
factors regulating, binding protein-3 secretion from human hepatoma (HepG2) cells, 131

Keratinocytes
steroidogenesis in the human skin: 21-hydroxylation in cultured, 77

Mammalian cells
structure-effect relationship in the induction of mitotic phase-specific abnormality of centrosome integrity and multipolar spindles by steroidal estrogen and their derivatives in cultured, 113
Mammary growth
effects of aromatase overexpression on, and gene expression in the aromatase x TGFα double transgenic mice, 419
Maternal blood
neuroactive steroids, their precursors and polar consugates during parturition and postpartum in, 51
MCF-7 cells
estrogen-mediated suppression of tumor necrosis factor alpha-induced apoptosis in, 409
inhibition of forskolin-induced vascular endothelial growth factor promoter in, by 17β-estradiol, 343
MDA-MB-231 breast cancer cells
estrogen receptor α mediated induction of the transforming growth factor α gene by estradiol and 4-hydroxytamoxifen in, 41
Menopause
codon 325 sequence polymorphism of the estrogen receptor alpha gene and bone mineral density in women during, 15
2-Methoxymethylestradiol
a new 2-methoxy estrogen analog that exhibits antiproliferative activity and alters tubulin dynamics, 145

Neuroactive steroids
during parturition and postpartum in maternal blood, 51
Neuroprotection
metabolism of dehydroepiandrosterone by rat hippocampal cells in culture: possible role of aromatization and 7-hydroxylation in, 313
Norandrosterone
endogenous origin of, in female urine, 351
Nuclear receptor
BAG-1 family of cochaperones in the modulation of, action, 379
Nuclear ribonucleoprotein U (hnRNP U/SAF-A)
effects of the heterogeneous, on glucocorticoid-dependent transcription *in vivo*, 59

Oligodendrocytes
ontogeny of steroid metabolizing enzymes in rat, 89
Oral contraceptives
alcohol intake, androgen and glucocorticoid steroids in premenopausal women using, 157
Ovarian carcinoma cells (SKOV-3)
high-dose progesterone inhibition of urokinase secretion and invasive activity by, 185
Ovary
promoter characteristics of two *CYP19* genes differentially expressed in the, of teleost fish, 427

PC12 cells
17β-estradiol inhibits soluble guanylate cyclase activity through a protein tyrosine phosphatase in, 451
Pituitary
effects of gender and stress on the regulation of steroid receptor coactivator-1 expression in the, of rat, 401
Placenta
purification, characterization and crystallization of human, estrone/dehydroepiandrosterone sulfatase, 441
Premenopausal women
alcohol intake, androgen and glucocorticoid steroids in, using oral contraceptives, 157
excretion and metabolism of desogestrel in healthy, 471
Progesterone
comparison of, concentration determination by 12 non isotopic immunoassays and gas chromatography/mass spectrometry in 99 human serum samples, 97
transformation of, to a new metabolite 9,10-seco-4-pregflene-3,9,20-trione, 493
Progesterone receptor modulators
rat uterine complement C3 expression as a model for, 137
Prostaglandin E_2 (PGE_2)
receptor(s)
characterization of, and their role as mediators of $1\alpha,25\text{-}(OH)_2D_3$ effects on growth zone chrondrocytes, 261
Prostatic epithelial cells
farnesyl diphosphate synthase is abundantly expressed and regulated by androgen in, of rat, 123
Protein interactions
peptide aptamers: new tools to study, 105

Receptor(s)
androgen(s)
properties of free and occupied, in rat skeletal muscle cytosol, 481
estrogen(s)
codon 325 sequence polymorphism of the, alpha gene and bone mineral density in postmenopausal women, 15
differential activation of wild type and variant forms of, -α by synthetic and natural estrogenic compounds using a promoter containing three estrogen-responsive elements, 25
estrogenic influence on the regulation of hepatic, -α and serum level of angiotensinogen in female rats, 83
expression of alternatively spliced, alpha mRNAs is increased in breast cancer tissues, 459
mediated induction of the transforming growth factor α gene by estradiol and 4-hydroxytamoxifen in MDA-MB-231 breast cancer cells, 41
suppression by, -β of AP-1 mediated transactivation through, -α, 177
the multiple untranslated first exons system of the human, -β gene, 33
hormone
ovarian, in human mammary stromal cells, 285
progesterone
rat uterine complement C3 expression as a model for, modulators: characterization of the new progestin trimegestone, 137
prostaglandin E_2 (PGE_2)
characterization of, and their role as mediators of $1\alpha,25\text{-}(OH)_2D_3$
effects on growth zone chrondrocytes, 261
steroid(s)
effects of gender and stress on the regulation of, coactivator-1 expression in the rat brain and pituitary, 401
Receptor-independent nongenoxic effect
high-dose progesterone inhibition of urokinase secretion and invasive activity by SKOV-3 ovarian carcinoma cells: evidence for a, on the plasma membrane, 185

5α-Reductase type II
stable expression of human, in COS 1 cells due to chromosomal gene integration: a new tool for inhibitor identification, 275

Shionogi 115 mouse mammary tumor cells
expression of the androgen-dependent MMTV-specific off gene in, 389
Steroid(s)
ontogeny of, metabolizing enzymes in rat oligodendrocytes, 89
effects of gender and stress on the regulation of, coactivator-1 expression in the rat brain and pituitary, 401
Steroidogenesis
evaluation of the present view of the catalytic role of 17-hydroxylase in, 299
in the human skin: 21-hydroxylation in cultured keratinocytes, 77
Sterol sidechain cleavage
reflections on, process catalyzed by cytochrome $P450_{scc}$, 1
Stromal cells
ovarian hormone receptors in human mammary, 285

Telomerase
in endocrine and endocrine-dependent tumors, 201
Testosterone
modulation of TSH-binding by, in the thyrocytes of Wistar rats, 329
Thyrocytes
testosterone and estradiol modulate TSH-binding in the, of Wistar rats, influence of age and sex, 329
Tissue-specific androgen responses
in primary cultures of lacrimal epithelial cells studied by adenoviral gene transfer, 319
Trimegestone
rat uterine complement C3 expression as a model for progesterone receptor modulators: characterization of the new progestin, 137
TSH-binding
testosterone and estradiol modulate, in the thyrocytes of Wistar rats, influence of age and sex, 329
Tubulin dynamics
2-methoxymethylestradiol: a new 2-methoxy estrogen analog that exhibits antiproliferative activity and alters, 145
telomerase in endocrine and endocrine-dependent, 201

Vascular endothelial growth factor promoter
17β-estradiol inhibits forskolin-induced, in MCF-7 breast adenocarcinoma cells, 343

We would like to express our deep thanks to the following persons for their kind collaboration in reviewing papers for this volume of The Journal of Steroid Biochemistry & Molecular Biology:

BALTHAZART J., Liege, BELGIUM
DELANSORNE R., MONACO
HAYNES B.P., London, ENGLAND, U.K.
HUNTER-JAMERSON M., Washington, U.S.A.
KATZENELLENBOGEN J., Urbana, U.S.A.
KLUG J., Marburg/Lahn, GERMANY
LONG B., Baltimore, U.S.A.
LUU-THE V., Quebec, CANADA
MELOEN R., Lelystad, The NETHERLANDS
MORFIN R., Paris, FRANCE
REED M.J., London, ENGLAND, U.K.
RUSSO J., Philadelphia, U.S.A.
SIMARD J., Quebec, CANADA
SULLIVAN D.A., Boston, U.S.A.
THIEME D., Dresden, GERMANY
van LEEUWEN J.P.T.M., Rotterdam, The NETHERLANDS
